1. **Purpose and Scope**

a. To establish standardized procedures for the documentation of oil consumption on CHTWP aircraft.

2. **Cancellation:** None

3. **Local Command Procedures:**

a. All commands shall utilize the engine/gearbox oil consumption record provided in the 4790.2H Volume 5 Figure 9-1 to document oil consumption rates for the aircraft engines, main gearbox, intermediate gearbox and tail gearbox after every flight. Auxiliary Power Unit (APU) does not require an oil consumption record.

b. Plane Captains shall document engine oil servicing in block 6 of the Aircraft Inspection and Acceptance Record (OPNAV 4790/141). Block 8 shall be utilized to document gearbox oil servicing.

NOTE: Local Command stamps can also be utilized for documentation on "A" sheets.

c. Oil consumption rates for tracked components will be calculated, verified against established consumption limits and logged on oil consumption record prior to releasing aircraft safe for flight. Completed forms shall be retained as directed in NAMPSOP.

NOTE: HC-3/5/11 no longer need to track gearbox oil consumption on HH/UH/CH-46 aircraft as per CHTWP message DTG 101630Z FEB 00. All other TMS will comply.

d. Oil consumption program monitor will screen oil consumption records in ADBs weekly and initial the forms to the right of the maintenance control signature block of the last entry logged on the day screening was accomplished.
